

Dear Cheerleading Parents:

To keep up with the changing world of cheerleading, this year will be our second year being professionally choreographed as a league. This decision has been carefully thought out and we feel that it's in the best interest of the girls so that they are more competitive with other towns that are being choreographed. At this point, no definite decision has been made on who will be choreographing our routines, but the general cost is about \$30, which includes gym time and the choreographed routine. More information will be given on this as soon as we finalize the details.

Additional costs during the cheerleading season will be as follows:

Body suit (for under competition uniform) approx. \$18  
Competition Bow  
approx. \$8  
Game Bow - coordinator's discretion (shouldn't exceed \$5)

The additional fees for choreography, body suit and competition bow will be due in the beginning of August.

If there is a problem with the additional cost, please feel free to contact any of us to discuss options.

Thank you.
